

I received a letter from K-LOVE informing me that they may be forced off the air. I am not only a listener to K-LOVE but a contributor as well. I pray that you reconsider and allow K-LOVE to continue to broadcast. America needs to be able to listen to the Word of God. I just don't understand why laws are being changed to make broadcasting about God so difficult.

My sister's church used to be able to broadcast over the television every Sunday morning until the law was changed to where they had to pay for every broadcast to be closed captioned. Since the church did not have the funds they were taken off the air. I ask you, is this becoming the American way?
